

Glue-down Luxury Vinyl Flooring Spec Sheet

	Version	North America		Origin	Thailand
SPECIFICATION	IS				
	Product type	LVT		Installation	Glue-down
	Overall thickness	2mm		Bevel	Cut bevel on 4 sides
	Wear layer	12mil (0.3mm)		Finish	UV coating
INGREDIENTS A	AND EMISSIONS				
	VOC Certifications	GreenGuard Gold (Compliant)			
	Norm	Item	Test Method	Requirement	Result
	CPSIA & Prop 65	Ortho-Phthalates	CPSC-CH-C-1001-09.4	N.D.	Compliant
		Heavy metals	ASTM F963	See the standard for details	Compliant
	REACH	SVHC	Spectrometry, chromatography	≤0.1%	Compliant
PERFORMANCE	1				
	Norm	Item	Test Method	Requirement	Result
	ASTM F1700	Length tolerance	ASTM F2055	+/- 0.4 mm per 305mm	Compliant
		Width tolerance	ASTM F2055	+/- 0.4 mm per 305mm	Compliant
		Thickness tolerance	ASTM F386	+/- 0.15mm	Compliant
		Thickness of wear layer	ASTM F410	commercial, 0.020 in. (0.5 mm) min	Compliant
		Squareness	ASTM F2055	0.25mm	Compliant
		Residual indentation	ASTM F1914	≤8% (140lbs/63.5kg)	Compliant
		Flexibility	ASTM F137	No cracks or breaks	Compliant
		Dimensional stability	ASTM F2199	$\Delta W/\Delta L \le 0.17\%$	Compliant
		Resistance to chemicals	ASTM F925	Slight change only	Compliant
		Resistance to heat	ASTM F1515	∆E ≤8	Compliant
		Resistance to light	ASTM F1514	∆E ≤8	Compliant
	NALFA LF 01-2011	Impact resistance	NALFA LF 01-2019 3.5	≥1400mm	Compliant
		Impact resistance	NALFA LF 01-2019 3.6	≥ 500mm	Compliant
LEED SCORECA					
	Credit Type	Points	Criteria		Product Contribution
LEED BD+C and ID+C	EQ Credit: Low-Emitting Materials	1-3 points	Option 1. Product has been tested according to California Department of Public Health (CDPH) Standard Method v1.2–2017 and complies with the VOC limits in Table 4-1 of the method. Additionally, the range of total VOCs after 14 days (336 hours) was measured as specified in the CDPH Standard Method v1.2 and is reported (TVOC ranges: 0.5 mg/m3 or less, between 0.5 and 5 mg/m3, or 5 mg/m3 or more). Option 1. Material Ingredient Optimization International Alternative Compliance Path – REACH Optimization (value at 100% of cost or 1 product). End use products and materials have fully inventoried chemical ingredients to 100 ppm and assess each substance agains the Authorization List – Annex XVI, the Restriction list – Annex XVI and the SVHC candidate list, (the version in effect June 2013,) proving that no such substance is included in the product. If the product contains no ingredients listed on the REACH Authorization, Restriction, and Candidate list.		
	MR Credit: Building Product Disclosure and Optimization – Material Ingredients	1 point			CFL LVT products are REACH compliant.
WELL SCOREC	ARD				
ractices in building desi	gn and management and ref				health and well-being. By compiling leading L works to harmonize and clarify existing
nresholds and requirem	ents.				

Facet	Feature	Part	Requirements	Concept score	How our product contribute to obtain WELL level certification
AIR	01. Air quality standards	: 1. Standards For Volatile Substances	The following conditions are met: a. Formaldehyde levels less than 27ppb (0.027ppm) b. Total volatile organic compounds less than 500ug/m3 (0.5mg/m3)	PRECONDITION	 a. Formaldehyde emission are less than 0.05mg/m3. b. The total volatile organic compounds are less than 0.5mg/m3.

erior Paints and Coatings ooring sbestos and Lead Restriction ead Abatement sbestos Abatement	The VOC limits of newly applied paints and coating meet one of the following requirements: a. 100% of installed products meet California Air Resources Board (CARB) 2007, Suggested Control Measure (SCM) for Architectural Coatings, or South Coast Air Quality Management District (SCAQMD) Rule 1113, effective June 3, 2011 for VOC content. b. At minimum 90%, by volume, meet the California Department of Public Health (CDPH) Standard Method v1.1-2010 for VOC emissions The VOC emissions of all newly installed flooring must meet all limits set by the following, as applicable: a. California Department of Public Health (CDPH) Standard Method v1.1-2010. All newly-installed building materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION PRECONDITION PRECONDITION	a. The VOC limits for California Air Resources Board (CARB) are less than 0.11ppm. b. Measured Concentration of Total Volatile Organic Compounds (TVOC): Less than/equal to 0.5 mg/m3 (in compliance with CDPH/EHLB Standard Method v1.1-2010). The product is GreenGuard Gold compliant Conforms to the CDPH/EHLB Standard Method v1.1-2010 (California Section 01350), effective January 1, 2012, for the school classroom and private office parameters when modeled as Flooring. The product is GreenGuard Gold compliant a. No asbestos b. The product contain less than 100 ppm. The product contain less than 90 ppm. The product contain less than 90 ppm.
sbestos and Lead Restriction	 a. 100% of installed products meet California Air Resources Board (CARB) 2007, Suggested Control Measure (SCM) for Architectural Coatings, or South Coast Air Quality Management District (SCAQMD) Rule 1113, effective June 3, 2011 for VOC content. b. At minimum 90%, by volume, meet the California Department of Public Health (CDPH) Standard Method v1.1-2010 for VOC emissions The VOC emissions of all newly installed flooring must meet all limits set by the following, as applicable: a. California Department of Public Health (CDPH) Standard Method v1.1-2010. All newly-installed building materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing, 	PRECONDITION PRECONDITION PRECONDITION	Organic Compounds (TVOC): Less than/equal to 0.5 mg/m3 (in compliance with CDPH/EHLB Standard Method v1.1-2010). The product is GreenGuard Gold compliant Conforms to the CDPH/EHLB Standard Method v1.1-2010 (California Section 01350), effective January 1, 2012, for the school classroom and private office parameters when modeled as Flooring. The product is GreenGuard Gold compliant a. No asbestos b. The product contain less than 100 ppm.
sbestos and Lead Restriction	Coatings, or South Coast Air Quality Management District (SCAQMD) Rule 1113, effective June 3, 2011 for VOC content. b. At minimum 90%, by volume, meet the California Department of Public Health (CDPH) Standard Method v1.1-2010 for VOC emissions The VOC emissions of all newly installed flooring must meet all limits set by the following, as applicable: a. California Department of Public Health (CDPH) Standard Method v1.1-2010. All newly-installed building materials meet the following materials meet the following materials meet the following materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION PRECONDITION PRECONDITION	Conforms to the CDPH/EHLB Standard Method v1.1-2010 (California Section 01350), effective January 1, 2012, for the school classroom and private office parameters when modeled as Flooring. The product is GreenGuard Gold compliant a. No asbestos b. The product contain less than 100 ppm.
sbestos and Lead Restriction	meet the California Department of Public Health (CDPH) Standard Method V1.1-2010 for VOC emissions The VOC emissions of all newly installed flooring must meet all limits set by the following, as applicable: a. California Department of Public Health (CDPH) Standard Method v1.1-2010. All newly-installed building materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION PRECONDITION PRECONDITION	v1.1-2010 (California Section 01350), effective January 1, 2012, for the school classroom and private office parameters when modeled as Flooring. The product is GreenGuard Gold compliant a. No asbestos b. The product contain less than 100 ppm. The product contain less than 90 ppm.
sbestos and Lead Restriction	installed flooring must meet all limits set by the following, as applicable: a. California Department of Public Health (CDPH) Standard Method v1.1-2010. All newly-installed building materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION	v1.1-2010 (California Section 01350), effective January 1, 2012, for the school classroom and private office parameters when modeled as Flooring. The product is GreenGuard Gold compliant a. No asbestos b. The product contain less than 100 ppm. The product contain less than 90 ppm.
ad Abatement	Health (CDPH) Standard Method v1.1-2010. All newly-installed building materials meet the following materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION	a. No asbestos b. The product contain less than 100 ppm. The product contain less than 90 ppm.
ad Abatement	materials meet the following materials composition requirements: a. No asbestos. b. Not more than 100 ppm (by weight) added lead. For repair, renovation or painting on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION	b. The product contain less than 100 ppm.
	on buildings constructed prior to any applicable laws banning or restricting lead paint, lead evaluation and abatement. To reduce hazards in buildings constructed prior to any applicable laws banning or restricting asbestos, the following testing,	PRECONDITION	
sbestos Abatement	constructed prior to any applicable laws banning or restricting asbestos, the following testing,		The product contain less than 90 ppm.
	evaluation and abatement.		
ame Retardant Limitation	Halogenated flame retardants are limited in the following components to 0.01% (100 ppm) to the extent allowable by local code: a. Window and waterproofing membranes, door and window frames and siding. b. Flooring, ceiling tiles and wall coverings. c. Piping and electrical cables, conduits and junction boxes. d. Sound and thermal insulation. e. Upholstered furniture and furnishings, textiles and fabrics.	OPTIMIZATION	The product don't contain halogenated flame retardants
nthalate (Plasticizers) Limitation	DEHP, DBP, BBP, DINP, DIDP or DNOP (often found in polyvinyl chloride [PVC]) are limited in the following components to 0.01% (100 ppm): a. Flooring, including resilient and hard surface flooring and carpet. b. Wall coverings, window blinds and shades, shower curtains, furniture and upholstery. c. Plumbing pipes and moisture barriers.	OPTIMIZATION	In accordance with US Consumer Product Safety Improvement Act 2008 (CPSIA) (H.R.4040) Title I, Section 108 & California Proposition 65 & Annex XV II item 51852 of the REACH Regulation (EC) No. 1907/2006 and amendment No. 552/2009, the product contains less than 100ppm.
rea-Formaldehyde Restriction	Urea-formaldehyde presence is limited in the following components to 100 ppm: a. Furniture or any composite wood products.	OPTIMIZATION	The product contains urea-formaldehyde less than 100ppm.
		conduits and junction boxes. d. Sound and thermal insulation. e. Upholstered furniture and furnishings, textiles and fabrics. halate (Plasticizers) Limitation DEHP, DBP, BBP, DINP, DIDP or DNOP (often found in polyvinyl chloride (PVC)) are limited in the following components to 0.01% (100 ppm): a. Flooring, including resilient and hard surface flooring and carpet. b. Wall coverings, window blinds and shades, shower curtains, furniture and upholstery. c. Plumbing pipes and moisture barriers. a-Formaldehyde Restriction Urea-formaldehyde presence is limited in the following components to 100 ppm: a. Furniture or any composite	conduits and junction boxes. d. Sound and thermal insulation. e. Upholstered furniture and furnishings, textiles and fabrics. halate (Plasticizers) Limitation DEHP, DBP, BBP, DINP, DIDP or OPTIMIZATION DNOP (often found in polyvinyl chloride [PVC]) are limited in the following components to 0.01% (100 ppm): a. Flooring, including resilient and hard surface flooring and carpet. b. Wall coverings, window blinds and shades, shower curtains, furniture and upholstery. c. Plumbing pipes and moisture barriers. a-Formaldehyde Restriction limited in the following components to 100 ppm: a. Furniture or any composite wood products.
